FULLERTON MUNICIPAL AIRPORT
HELICOPTER
NOISE ABATEMENT PROCEDURES

Follow arrival and departure paths as shown, **UNLESS OTHERWISE DIRECTED BY ATC**. All procedures are for VFR operations only.

ARRIVALS

NW - N/E -- For both runway operations, follow railroad tracks.
SW - S/E -- For Runway 24 operations, use Magnolia routing. For Runway 06 operations, use Dale routing.

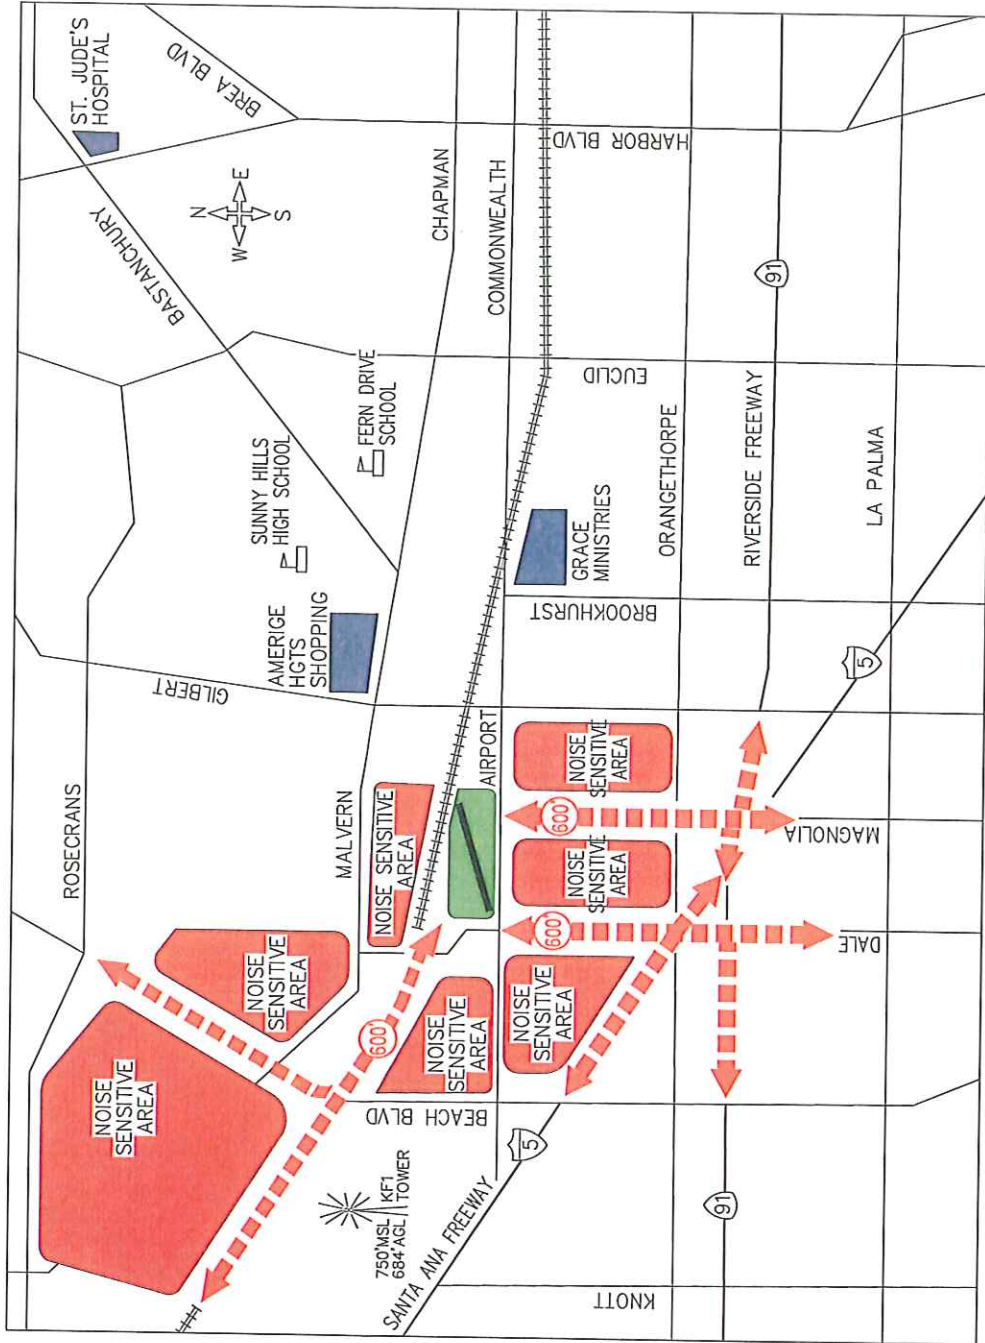

DEPARTURES

NW - N/E -- Fly north until railroad tracks; turn west **OVER** railroad tracks. Cross a point east (see map) of Beach Blvd. at 600 msl. Make N/E turn over Beach Blvd. Continue west over railroad tracks before making any other turns.
SW - S/E -- Fly south on appropriate route until over either freeway (I-5 or 91) before making any turns. Cross a point south (see map) at 600 msl.

- Avoid overflying noise sensitive areas, unless otherwise directed by ATC.
- Maintain cruising altitude (600 msl) as long as possible. Begin descent as **CLOSE TO AIRPORT** as possible.
- Flight paths are shown for both Runway 06 and 24 operations.
