

# You're Invited

### **SR-91 Westbound Lane Widening Project**

## **Neighborhood Information Table**

Caltrans and OCTA invite you to stop by our neighborhood information table to get an update on the SR-91 Westbound Lane Widening Project, including work that will be taking place on the Houston Channel and at the westbound Brookhurst Street overcrossing. As part of this project, construction crews will be reconstructing a limited portion of the channel from an open trapezoid channel to an underground boxed channel. Work on the channel must be performed during the "dry season." Additionally, crews will be widening the westbound overcrossing at Brookhurst to make room for the new westbound lane.

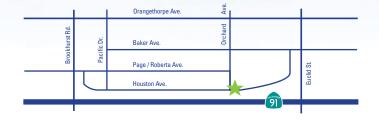

Project staff will be present to discuss ongoing work and answer questions from community residents. As part of the project, Caltrans and OCTA will add a new westbound general-purpose lane from approximately between SR-57 and I-5. The project is scheduled to be complete in late 2015.

### Saturday, June 15, 2013

8:00 a.m. to 10:30 a.m.

### Near the intersection of W. Houston Avenue and S. Orchard Avenue

The location is bound by Brookhurst Road on the west, Euclid Street on the east, Houston Avenue on the south (the 91 beyond Houston) and Baker Avenue on the north.

### **Project Benefits**

- One new four-mile lane in the westbound direction between SR-57 and I-5
- Widened crossings at State College, Acacia Avenue, Raymond Avenue, Metrolink Crossing, Euclid Street, Brookhurst Street
- Standardized 12-foot lanes and 8-10 foot shoulders
- New striping, overhead signage and safety barriers
- New improvements to drainage facilities
