"Focus on Fullerton" is a publication of the City of Fullerton, 303 W. Commonwealth Ave., Fullerton, CA 92832.

Subscriptions help support Paramedic program

Residents are reminded that it will soon be time to renew their participation in the City's annual Paramedic Subscription Program.

For a single nominal fee, every permanent resident of a household can be assured of low-

cost Paramedic coverage whenever it is needed from July 1, 2010, through June 30, 2011.

All fees collected from subscriptions directly support the Paramedic program, including maintaining state-of-theart emergency equipment.

Why pay the subscription fee? While Paramedic service is available to all Fullerton citizens regardless of

whether they join the subscription program, nonsubscribers should be aware they will be charged a per-call fee whenever they call the Paramedics. The amount of the fee depends on the type of service provided, and current per-call cost estimates range from \$250-\$500.

Citizens should also be aware that the subscription fee does not include ambulance costs. Those costs are billed separately by the ambulance company.

The subscription fee will show up on residents' water bills in May and June. To enroll, residents should simply include the fee with their water bill payment. If they prefer not to subscribe, they should deduct the fee from their bill, and pay the difference.

Further information about the Paramedic Subscription Program may be obtained by calling the

Paramedic Services of the Fullerton Fire Department between 7 a.m. and 5 p.m. weekdays at (714) 738-6341.

A subscription program is also available for businesses. For information, call (714) 738-6341.

Fullerton Paramedics in action: providing quality emergency care

New tool offers help for business community

The Redevelopment and Economic Development Department has added a new resource to the City of Fullerton website.

The new tool, called Loopnet, is a link to a commercial real property search engine. It offers a comprehensive suite of products and services to meet the national and local needs of commercial real estate firms, organizations and professionals. According to Loopnet's website, it operates the largest real estate listing service on-line.

Providing a link to Loopnet enables the City to minimize commercial vacancies by promoting access to information regarding available spaces for business opportunities to established companies and entrepreneurs looking to expand, relocate or open up their business in Fullerton.

Loopnet is similar to the commercial real property search engine called CoStar currently available on the City's website. A significant difference between the two search engines is that listings can be posted to Loopnet for free as opposed to CoStar, which requires a fee to post.

By providing links to both search engines, the City is able to promote smaller commercial spaces that may have less formal listing representation as well as larger spaces that may be represented by a professional firm.

Quick guide to understanding a water meter

A water meter can help you manage your bi-monthly water bill. By monitoring your use weekly or even daily, you can make better decisions on water use.

The meter dial pictured at left is typical of most residential meters and is usually located near the street. The dial on the meter serving your home may look somewhat different, but they all work on the same principles.

The flow indicator triangle (1) rotates whenever water passes through the meter. If the triangle turns when no water is being used on your property, you may have a leak, which should be investigated.

Each full revolution of the register sweep hand (2) indicates that 10 gallons of water have passed through the meter. The markings at the outer edge of the dial indicate ones and tenths of one gallon.

The water meter register (3) is a lot like the odometer on your car. The numbers keep a running total of all the water that has passed through the meter. The register shown here indicates that 115,357.6 gallons have passed through this meter at the time of this read. If you check the reading a week later and subtract the two reads that will be the amount of water you used for the week.

Suggested weekly winter/spring irrigation schedule

Month	Turfgrass	Trees, shrubs & groundcover
February	2 days, 2 cycles of 2 minutes each	1 day, 2 cycles of 3 minutes each
March	2 days, 2 cycles of 3 minutes each	2 days, 2 cycles of 3 minutes each
April	3 days 2 cycles of 4 minutes each	2 days, 2 cycles of 4 minutes each

By cycling the irrigation controller to turn on for the recommended number of minutes an hour apart, deeper watering and healthier root growth are gained, while runoff is reduced.

REMEMBER: Always turn your water off before it rains, and let the soil dry before turning it on again.

New tool offered to help businesses

(Continued from pg. 1)

The Loopnet link on the City's website redirects the visitor to a free search engine on www.loopnet.com, where anyone can search properties for sale or lease. Properties in the database include office, industrial, retail, shopping center, etc. Search criteria can be specific to Fullerton, indicating factors such as square feet,

available parking, docks, utilities, rental rates and lease type. In addition to providing property information, search results provide direct broker, property manager and/or owner contact information.

The free property search link to Loopnet is available on the City's website at: www.cityoffullerton.com/depts/eco dev/realestate.asp,

Those searching for the perfect location can further their due diligence research by scheduling a free EDAT (Economic Development Action Team) meeting with senior City staff from the planning, building, fire, engineering, redevelopment and economic development departments.

Further information about EDAT is available on the City's website at www.cityoffullerton.com/depts/eco-dev/edat/edat.asp.

Please contact Nicole Coats, Redevelopment and Economic Development Project Manager with any questions at (714) 738-4102 or nicolec@ci.fullerton.ca.us.

Home composting workshop set

The City of Fullerton is teaming with the Fullerton Arboretum to present a free public workshop on home composting June 5 at the Arboretum.

The workshop, "Home Composting II," is designed for people who already have some experience with composting.

The workshop will begin at 10 a.m. Fullerton Arboretum is located at 1900 Associated Road, on the CSUF campus.

The 90-minute workshop will offer such hands-on demonstrations as composting, mulching, and "grasscycling," as well as instructions on what can and cannot be composted, and how to make a home composting bin.

The workshop is free to Fullerton residents. In addition, a limited number of state-of-the-art compost bins will be available for Fullerton residents to purchase for only \$20.

Registration and further information may be obtained by calling the Fullerton Arboretum at (657) 278-3407.

Persons requiring special accommodations to attend the workshop are asked to notify the Arboretum staff when registering.

Be a Water Watchdog!

In response to the current statewide water emergency, the City of Fullerton has set up a special telephone hotline residents and business owners can call with water concerns.

The "Conservation and Water Watchdog Hotline" – (714) 738-6744 – is designed for citizens wanting conservation information, to ask questions, or to request water surveys.

Citizens can also to report everything from broken sprinklers on public property or individuals using excessive water.

Rebates available!

The MWD offers rebates to Fullerton water customers who install new water-saving devices, including smart irrigation timers, rotating nozzles, and synthetic turf. For more information about rebates please visit www.bewaterwise.com.

Working together for the community

Volunteers from all walks came together recenty to help install a new KaBOOM! playground at Olive Park in west Fullerton. The 2,500-square-foot playground was funded through a \$61,000 grant from The Home Depot Foundation, a \$30,000 contribution from the City of Fullerton and \$7,500 from the community and the Orangethorpe Learning Center. More than 200 volunteers, including 120 from Home Depot, raised the playground in six hours

Fullerton Police, Parks and Recreation join forces for kids

The Fullerton Police and Parks and Recreation departments are joining forces to give Fullerton youths a boost on the road to learning how to make positive and safe choices that will help them become successful, productive citizens.

The "Fullerton Lifting Youth" Program (FLY) is "designed to assist young people in becoming aware of their abilities, behavior and values – qualities we believe are necessary in developing healthy and responsible adults," said Police Chief Michael Sellers.

The program targets children in two age groups: 8-10 and 11-13.

Sellers said FLY was created in an effort to head off what appeared to be growing tendencies in those age groups toward negative activities.

"We've seen an increase in violence, bullying and acts of vandalism in these age groups, and we are trying to be proactive and make a difference with these kids before bad things can happen to them," Sellerssaid.

The program, conducted with assistance from the City's Gilbert

4th Annual Kids' Fishing Derby April 17

Start a family tradition and join us for this special day! There will be learning stations for beginning anglers, and lunch will be provided. Gear will be available to use for those who go

through the Department of Fish and Game fishing stations. The "Kids' Casting Contest Finals" will be held before lunch. Hurry and register as this event will sell out! Register by calling the Fullerton Parks and Recreation Department at (714) 738-6575. Free t-shirts to the first 400 kids pre-registered. We are also looking for volunteers for the day of the

event. Please call Yvonne Pedersen at (714) 738-6594 if

you can help.

Park Community Center in west Fullerton, consists of 10 weeks of after-school classes in which police officers and other professionals discuss a variety of topics that confront youths on a daily basis.

Topics include avoiding substance (drugs, tobacco and alcohol) abuse, self-esteem, peer pressure, avoiding gangs and violence, conflict management, and decision-making techniques.

Youths selected for participation in the program are recommended by the schools. The after-school classes will be held at the Orangethorpe Christian Church, which is adjacent to the Gilbert Park Community Center.

Chief Sellers added that a very important component of the FLY Program is participation by parents.

"Parents serve as a back-up component to demonstrate the principles being taught," he said.

Sellers said a party will be held at the end of the 10 sessions to congratulate the youths on successfully completing the program.

Further information about "Fullerton Lifting Youth" may be obtained by calling the Police Department at (714) 738-6835.

Have a 'Conversation with your City'

Citizens are invited to have a "Conversation with your City," a special program presented by Councilwoman Sharon Quirk-Silva.

The programs will be held the last Thursday of the month, starting Feb. 25. All programs will begin at 7:30 p.m., and will be held at the Fullerton Museum Center, 301 N. Pomona Ave..

Guest speaker at the Feb. 25 meeting will be Police Chief Michael Sellers, who will discuss dangers posed to children by the Internet.

The goal of the "Conversations with your City" programs is to introduce citizens to the people charged with making sure the city runs smoothly and efficiently.

Speakers at future programs include City Manager Chris Meyer, Parks and Recreation Director Joe Felz, and Redevelopment and Economic Development Director Rob zur Schmiede.

Citizens will be able to ask questions about city activities and projects, as well as talk about matters of concern to them.

Further information may be obtained by calling the City Council Office at Fullerton City Hall at (714) 738-6311.

The City began a comprehensive update to its General Plan in late 2006. Since the beginning, a priority has been to create a community-based General Plan that will respond to the priorities of the community expressed in "The Fullerton Vision."

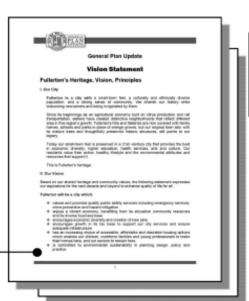

"The Fullerton Vision" is a statement, approved by the City Council, which identifies the community's most important issues and opportunities for the future of Fullerton and establishes a foundation for the updated General Plan.

The Fullerton Plan is organized into four Master Elements containing 21 chapters (or sub-elements) which are based on the priorities contained within "The Fullerton Vision." The purpose of The Fullerton Plan is to implement the community's vision for Fullerton's future.

To accomplish this goal it is imperative that the Fullerton Plan is designed to create accountability through an internal networking system. The corresponding graphic illustrates this inter-connectivity of the Fullerton Plan. The documents referenced in the graphic are available for viewing on the General Plan Update of the City's website located at www.ci.fullerton.ca.us.

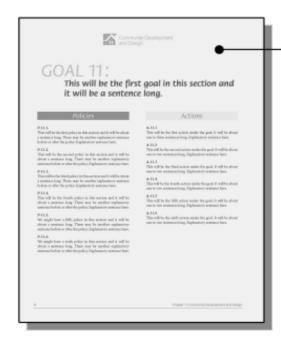

For further information about the General Plan update process, workshops or meetings, visit the City of Fullerton website at www.ci.fullerton.ca.us, and click on the General Plan Update logo. You may also call Bob St. Paul, Fullerton senior planner, at (714) 738-6559. Information about General Plan update meetings and workshops can also be found on the City's government cable channel, Time Warner Channel 3.

City program provides assistance to homeless families

Two social service agencies are teaming together to offer assistance to individuals and families in need of shelter during cold weather months or as a result of the economic downturn.

Fullerton Interfaith Emergency Service (FIES) offers help to residents in danger of losing their housing as a result of the poor economy. Services include rental and utility assistance, legal assistance with tenant-landlord issues, and information and referral.

Persons interested in receiving assistance must have been a Fullerton resident for a minimum of three months, and must show documentation proving they are legal residents of the United States.

For individuals and families who have lost their housing, FIES also offers a "Rapid Re-Housing" service that provides aid to individuals and families who are homeless or live in shelters. Assistance available includes security and utility deposits, moving costs, rental and utility assistance, and case management.

Those interested in assistance must have been a Fullerton

Business Expo set for March 26

The City's Redevelopment and Economic Development Department, together with the Fullerton, Brea, La Habra, Placentia and Yorba Linda chambers of commerce, is asking you to save the date for the 2010 North Orange County Business Expo.

The Expo will be held from 9 a.m.-6 p.m. March 26 in the Titan Student Union on the campus of California State University, Fullerton, 800 N. State College Blvd.

Prospective, novice and seasoned business professionals who attend the North Orange County Business Expo will have an opportunity to learn about the numerous and varied resources that are available to assist them in their business endeavors.

The morning session of the Expo is free and will feature workshops along with several panels of experienced business professionals addressing topics ranging from how to contact resource providers to how to obtain financing for a new business. Compliance requirements, networking, evolving media marketing techniques, growing market opportunities and sales practices will also be addressed.

A keynote luncheon will take place from 11:30 a.m.-1:30 p.m. Seating will be limited, and pre-registration for the \$35 luncheon ticket is highly recommended.

The afternoon session is also free and will include numerous resource booths and vendor exhibits. Attendees and participants will have the opportunity to meet lenders and service contracting officers, learn about government contracting opportunities, and make appointments for future business counseling, training and technical assistance.

The North Orange County Business Expo is free to guests; however, pre-registration for each of the morning, keynote luncheon and afternoon sessions is suggested and may be arranged by contacting the Fullerton Chamber of Commerce at (714) 871-3100 or by logging on to www.fullertonchamber.com.

Businesses or resource agencies interested in reserving a sponsorship opportunity, booth exhibition, leading a workshop or speaking on a panel should also contact the Fullerton Chamber.

Parking for the event is \$7. The best parking location is the CSUF Parking Structure off Dorothy Lane on State College, north of Nutwood Avenue and south of Yorba Linda Boulevard.

resident for more than three months prior to becoming homeless, and must show documentation proving they are legal U.S. residents.

The FIES programs are part of the City's Homelessness Prevention and Rapid Re-Housing Program, which FIES is coordinating for the City. The City received approximately \$620,000 in federal stimulus money to fund assistance programs for the homeless and those threatened with the loss of their housing.

Further information about Fullerton Interfaith Emergency Service may be obtained by calling Jim Womack at (714) 680-3691, or by logging onto www.fies.us.

Also offering assistance to the homeless is the Orange County Cold Weather Armory Emergency Shelter Program, which provides emergency temporary shelter at the National Guard armories located in Fullerton and Santa Ana when temperatures turn cold. In addition to a bed for the night, the program provides dinner and breakfast, donations of warm clothes, and shower facilities.

Bus service is available for nights when the Fullerton Armory will be open. Pick-ups will be at 5 p.m. at N. La Palma Parkway and Swan Street (inside the fenced parking lot across from La Palma Park Stadium) in Anaheim.

The armory program is a collaborative effort of the County of Orange, the California National Guard, the Cities of Fullerton and Santa Ana, and Mercy House Living Centers. Further information may be obtained by calling Michael Malabo of Mercy House at (714) 836-7188, est. 105, or by email at michaelm@mercyhouse.net.

Museum Center calendar

"Cine-Saurus: Dinosaurs in the Movies" Through April 4

Don't miss this exciting exhibit! Enjoy original movie memorabilia, posters and models from the renowned Czerkas collection. "Cine-Saurus" is a traveling exhibit produced in association with The Dinosaur Museum in Blanding, Utah.

"Solid Design: Leo Fender's Telecaster" Through 2010

The exhibit showcases the Telecaster, the first commercially successful solid body electric guitar, an instrument that changed music history. Numerous early examples are on display, as well as Telecasters once owned by celebrities.

"Cine-Saurus Saturdays: The Dinosaur Art of William Stout"

7 p.m. March 6

\$12 general public / \$10 Museum members Meet world-famous fantasy artist and illustrator William Stout, whose work is featured in "Cine-Saurus: Dinosaurs in the Movies." Stout has worked on more than 30 feature films including both "Conan" films, "First Blood," "The Hitcher," "Invaders from Mars," "Men in Black," "Dinosaur," "Pan's Labyrinth" and many others. Stout will lead a tour of the exhibit, as well as give an illustrated lecture on his work, combining the worlds of science, imagination, and art.

Wednesday Art Studio

May 5-May 26 For grades 1-6

\$40 general public (includes Museum Family membership); \$35 for Museum members

Put your skills to the test and learn new art techniques! Make friends and have fun creating original art, including drawing, painting, printmaking, clay, fused glass and more. Fee includes all materials, pre-registration is required

"Cine-Saurus Saturdays:

Planet of the Dinosaurs Evening"

7 p.m. March 20

\$12 general public / \$10 Museum members

Come for a screening of the 1978 film "Planet of the Dinosaurs," followed by a discussion of the history of special effects from traditional stop motion animation to today's stateof-the-art computer animation. Presenters include: Stephen Czerkas moderator, traditional model maker and film historian; Jim Aupperle, computer animation and lighting expert; and Jim Danforth, traditional matte painting.

Call 714-738-6545 for more information

Did you know just one quart of oil can pollute 250,000 gallons of water?

What are the hazards of used oil?

Used oil can contain such contaminants as lead, magnesium, copper, zinc, chromium, arsenic, chlorides, cadmium, and chlorinated compounds. Oil poured down drains or onto the ground can work its way into our ground and surface waters and cause serious pollution. Federal reports indicate that used motor oil accounts for more than 40 percent of the total oil pollution of our nation's harbors and waterways.

Can used oil be recycled?

Yes, used oil is very recyclable. Used oil can be re-refined or processed into fuel oil. Unfortunately, not enough is being recycled. In 1998, 140 million gallons of lubricating oil were sold in California. Approximately 40 percent or 56 million gallons, leaked out of engines or was burned. Yet, of the remaining 84 million gallons, just 64 million gallons were recycled, leaving approximately 20 million gallons unaccounted for and possibly improperly disposed of down storm drains, into lakes or streams, or thrown in the garbage.

How can you help?

You can participate in oil recycling by following these tips:

- Drain your used oil into a clean container.
- Do not mix any other materials, including water, with used oil.
- Take your used oil to a household hazardous waste collection facility or a used oil collection site.

To find a collection center near you, call 1-800-CLEANUP or log on to www.1800cleanup.org. Fullerton collection centers are:
