RE: City of Fullerton Local Hazard Mitigation Plan Submission

Dear Mr. Worman:

Enclosed is the City of Fullerton Local Hazard Mitigation Plan, in both hardcopy and electronic format, for review by the State and FEMA. This plan update has been prepared to meet the Disaster Mitigation Act of 2000 (DMA 2000) and Flood Mitigation Assistance (FMA) program requirements.

The City of Fullerton Local Hazard Mitigation Plan is the result of a planning effort that was coordinated by a multi-department and multi-agency Hazard Mitigation Planning Committee (HMPC) and facilitated by AMEC Earth & Environmental. The plan is based on a hazard identification and risk assessment of the potential natural hazards that could impact the City of Fullerton Planning Area. The plan also includes a review of the City's current capabilities with regards to reducing hazard impacts. In addition, the plan details a Mitigation Action Plan for the City to reduce their vulnerability to potential disasters. This is a single jurisdictional plan with the City of Fullerton seeking approval of the plan by FEMA.

We are requesting that the state review the plan to ensure that it meets all the DMA 2000 and FMA requirements and to forward the plan to FEMA Region IX for interim review and approval, with final approval subject to adoption by the City. We are confident that the plan will meet both DMA and FMA criteria and have noted the specific locations of where the criteria are met in the attached FEMA crosswalk. We welcome your comments on the plan, and we prefer that you forward the plan and your comments directly to FEMA unless there is a concern regarding the DMA 2000 or FMA eligibility.

Sincerely,

A handwritten signature in black ink, appearing to read "H. Allen".
