It’s just that easy!

Extreme Makeover
Truslow Park Edition!

Hundreds of volunteers from the Truslow Park neighborhood, Maple School, Maple School PTA, the City of Fullerton and California Volunteers through a grant from KaBOOM! will join forces to build a new, safe, handicapped-accessible playground at Truslow Park.

In less than eight hours, volunteers will build a new playground that will serve the families and kids of southeast Fullerton for years to come... The playground’s design is based on drawings provided by kids from the community who attended a playground ‘Design Day’ earlier this month.

Volunteers from the community will assemble the playground structures, plant a community garden, work on a variety of playground-and park-related projects and help paint a mural dedicated to Cesar Chavez.

What we need to make this happen … is you! All you need to do is sign up and then show up – everything else will be provided. We will keep you going with breakfast, snacks, lunch and all the water you can drink. The sense of pride and satisfaction you’ll get in being a part of this amazing event will just be a bonus! Feel free to bring your kids with you as there will be age appropriate activities for them as well.

See you there!

Date: Sat. April 25th
Time: 8:00am - 3:00pm
